

This is in regards to the Low Power FM (LPFM) ruling. I listen to K-LOVE radio station which is a Christian station serving the San Luis Obispo/Santa Barbara counties. If we were to lose this station because they lose their FM translator, it would effect this community greatly. This station is a positive influence on many people and there is not a lot of positive stations we can listen to anymore. Please to not let them lose their ability to broadcast in this area. Thank you.
